

## **2016 Lake Parks Annual Pass Changes FYI**

### **Change to Date System**

- Old Pass—Passes sold before 2016 were on a *calendar year* system, meaning no matter when they were purchased they were only valid through Dec. 31 of that same year.
- New Pass—Current passes sold in 2016 and moving forward are on a *year-to-date* system, meaning a pass sold is valid through the end of the month one (1) year from the date of purchase.

### **New Add-On Price**

- Old Pass—Purchasing multiple passes was only possible by completing an application form for each vehicle and paying full price for each pass.
- New Pass—Now Add-On passes can be purchased for each vehicle on the purchaser's insurance card at a discounted rate of \$20 Res/\$60 Non-Res

### **Change to Vehicle Pass Only**

- Old Pass—Previously, passes could be purchased for either the purchaser's vehicle or their boat trailer.
- New Pass—Passes are now available for the owner's vehicle only. This allows for better control over pass assignment, curbing the previously widespread practice of boat sharing where one pass was purchased for multiple users of one boat, which was a common way for individuals to bypass the boat ramp fee.
