

Firehouse #2

Project Name: Build Firehouse #2

Cost: \$7,988,767

Description:

Build a new Firehouse #2 at the corner of Dove and Kimball. This will be a complete new modern firehouse in the neighborhood of 13,660 square feet. This firehouse will also contain a back up dispatch center for the City so that with a flip of a switch, 911 calls, fire and police radio communications can be answered and dispatched.

Background:

The original building was opened in 1981 with approximately 3,000 square feet of space which includes bays for three fire apparatus. The current living quarters do not provide separate bathroom and shower areas for male and female firefighters. The build of the new firehouse would also ensure that the facility is in compliance with all Americans with Disabilities Act requirements.
